# Let O2 Guardian take care of the juggling act

We know it can be a challenge when you're the sole person in charge of a whole fleet of corporate mobile phones. So that's why we've set up O2 Guardian — to help ease the burden, offering you:

Billing data displayed at all access levels within a company; Comprehensive reports with graphs; Up to 24 months of historic data; Personal call allocation and VAT management; Asset register and management of repairs, replacements and upgrades; and management information highlighting areas of high/low activity.

So, if you're in charge of more than 500 connections, you'll be eligible for the O2 Guardian billing service.

We know it can be a challenge when you're the sole person in charge of a whole fleet of corporate mobile phones. So that's why we've set up O2 Guardian – to help ease the burden, offering you:

Billing data displayed at all access levels within a company; Comprehensive reports with graphs; Up to 24 months of historic data; Personal call allocation and VAT management; Asset register and management of repairs, replacements and upgrades; and management information highlighting areas of high/low activity.

So, if you're in charge of more than 500 connections, you'll be eligible for the O2 Guardian billing service.
